
AUCIELLE
18K JEWELLERY

From
our family
story
to yours

*Au*cielle, *inspired by family, guided by personal choice*

Aucielle carries forward a family story that began in 1990, when Patrick and Katrien founded our family company. Four years ago, our 18K gold collection became Aucielle, marking a new name, a refined identity and the beginning of a fresh chapter led by Gauthier as the second generation. With the arrival of Florence, a third generation brings new meaning to our story and deepens our commitment to the future.

Driven by innovation and respect for jewellery craftsmanship, Aucielle creates 18K gold jewellery with timeless elegance, exceptional quality and refined finishing. Each piece is designed to reflect your individual style and become part of your story.

Whether you are drawn to the modern brilliance of lab-grown diamonds, the timeless romance of natural diamonds, the vibrancy of coloured gemstones, the soft glow of freshwater pearls or the sparkle of cubic zirconia, Aucielle lets you choose what feels truly yours. We bring your choice to life.

18K
collection

diamonds

Modern diamonds, made to last

Following their successful launch, lab-grown diamonds have become a confident choice within our Aucielle 18K gold collection. Their real diamond beauty creates new possibilities: from larger centre stones and more diamond accents to refined quality in every detail.

This chapter extends beyond solitaire and wedding rings, with classic sets, modern creations, tennis bracelets and hoops, from everyday elegance to life's meaningful moments. Made for today and created to last a lifetime, each piece gives your personal choice new brilliance.

Lab-grown diamonds are physically, chemically and optically identical to mined diamonds. The only difference lies in their origin and the time they take to form.

Created above ground in just weeks using cutting-edge technology, they offer the same exceptional brilliance, hardness and timeless diamond beauty as natural diamonds.

Certified with care

We use only premium, colourless lab-grown diamonds in DEF colour and VS clarity or higher.

Diamonds of one carat and more also come with an IGI certificate, providing additional transparency and trust.

Four settings, one signature diamond

Discover our signature solitaire rings in profile and see how setting styles, prongs, side stones and hidden halo details create a distinctive look and feel, helping you choose the perfect ring.

CLASSIC FOUR PRONG

A clean, timeless profile with a straight band and full focus on the centre diamond. Its low setting sits beautifully alongside a wedding ring. Also available in a six prong version.

CATHEDRAL FOUR PRONG

A raised profile with a tapered band that gently narrows towards the centre diamond, giving the stone a more prominent and larger-looking presence.

CLASSIC FOUR PRONG WITH SIDESTONES

Sidestones enhance our classic four prong setting, adding refined brilliance along the straight band while keeping the centre diamond in focus. Also available in a six prong version.

CATHEDRAL FOUR PRONG WITH SIDESTONES

Sidestones add sparkle to the straight band of this raised cathedral ring. From 1ct upwards, a hidden halo beneath the centre diamond adds an extra touch of brilliance.

Designed for the moment, made for a lifetime

Our signature solitaire and wedding rings are available in yellow, white and rose gold. Each solitaire is designed to sit beautifully alongside a matching wedding band and remain comfortable for a lifetime.

The ring band is carefully adjusted to the size of the centre stone, ensuring a balanced and beautifully proportioned design.

Modern colour, timeless elegance

Colour brings a new energy to 18K gold jewellery. From deep blues and vibrant greens to soft, luminous shades, cubic zirconia (CZ) and gemstones give every piece its own character.

This chapter brings together elegant gold sets, timeless silhouettes and contemporary designs, designed to bring colour, refinement and personal expression to everyday moments.

Natural beauty, coloured character

For those drawn to the romance of diamonds formed by nature, natural diamonds bring timeless light. Coloured gemstones offer depth and character.

This chapter celebrates the pure sparkle of natural diamonds, the vibrancy of coloured gemstones, and their refined beauty in both classic and contemporary 18K gold jewellery.
